EURONET

ISO 9001: 2015 CERTIFIED

COMPLETE RANGE OF
INDOOR & OUTDOO LIGHTS

SOLAR GARDEN LIGHT

www.euronetdxb.com

EURONET

ISO 9001: 2015 CERTIFIED

Features:

- Enables outdoor grilling at night.
- Provides increased safety after dark.
- It helps to thwart crime during night.
- Useful during seasons when it gets
- darker earlier.
- Enables to see how to get from one
- location to another.
- Helps to create comfortable and communal surroundings.
- Creates a warm welcome when family and guests enter the front door.
- Highlights and adds drama to interesting landscape or architectural features.

GENERAL Specifications	
Item Name	Solar Garden Light
Light source	LED lamp
Light Type	LED lamp
Solar Panel	2.2W
Cell Type	Li-Battery
Solar Panel	2.2W
Light Source	1w Super Bright LED
Switch	ON/OFF
Working Time	12-20 Hrs
Illumination Time	8h
Voltage	3.6V
Battery Capacity	3.7/2500mAh
Charging Time	6-8 Hrs
IP Grade	IP65
Main Material LampShade	Acrylic
Base	Stainless Steel

Benefits of Using Energy-Efficient Outdoor Lighting For Your Business

- Enhanced energy efficiency
- Reduced carbon emissions
- Reduced light pollution
- Increased public safety
- Improved Appearance

Benefits of Installing Outddoor Lighting

Your Home

Lighting your home's structure allows you to extend the beauty of your home in the dark of night when it would otherwise be obsured

Your Lanscaping

Landscape lighting is used to illuminate standout features, such as trees, sculptures or water features, as well as around garden and pathways

Your Safety

A well-planned outdoor lighting scheme should include all the light necessary to move safely around your property at night

Your Security

Criminals are less likely to approach as well-lit home where they can be seen. The more you can eliminate dark corners, the more secure your home will be.

## Features:

- Eco-Friendly
- Long Lifespan
- Energy efficiency
- Low radiated heat
- Directional lighting
- Exceptional colour range
- Instantaneous illumination
- Reliability & Compact in Size
- High brightness and intensity
- Superior Color Rendering Accuracy
- Function in Cold and Hot Temperatures

FRONT

BACK
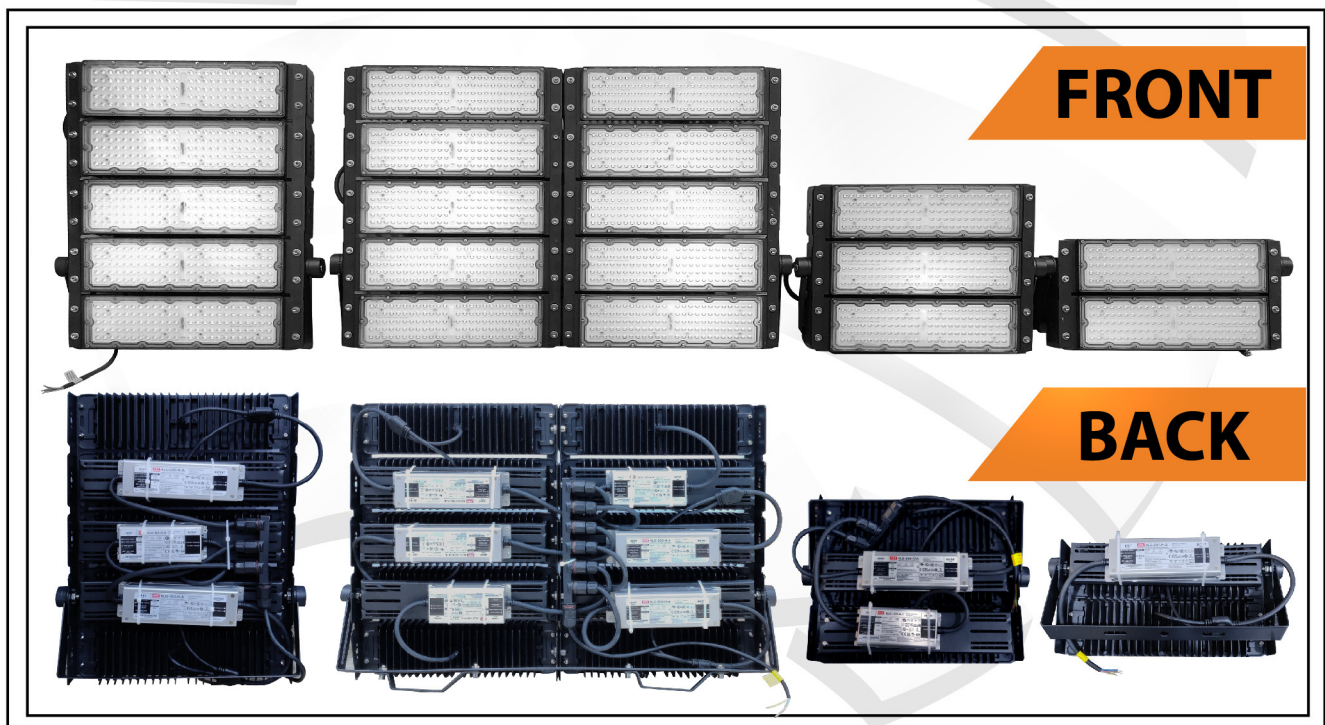

Features:

- Unique optical and lamp design,
- Safe , reliable and excellent brightness.
- Using high quality LED chip with low light decay,
- Low power consumption, high luminous efficiency, and more energy-saving than regular lighting
- Quick switch, no strobe, no radiation and longer product life up to 30000 hours.

Model: 4330s / 4331s

Product's Characteristics:

1. Bullt in with capacity 800mah rechargeable maintenance free-aid battery.

2. The battery has tong life. and the numbers of discharge of the battery is up to 250 times

3. Use pcs 1W high LED light and 8 pcs 0.3W LED which has long life. low power consumption and white light.

4. Solar panel: 0.2W

EURONET
E-4330S

Model: 5W, 7W, 9W

Features:

- Dimmable Led Bulb
- Flicker-free lighting
- Low power consumption
- Led Light With An A+ Energy Label
- Connects to any regular bulb holder
- 4 times longer life compared to normal bulb
- LED bulbs use 80% less energy than normal bulbs
