

Features:

- Minimum power consumption
- Suitable for Solar power supply operation
- Extremely low starting compressor current
- Multifunctional, fridge and freezer all in one
- Extremely high reliability and long life expectancy
- Extremely powerful DC compressor cooling system
- Compact overall size, easily accommodate anywhere
- Exchangeable door panel and variable door mounting

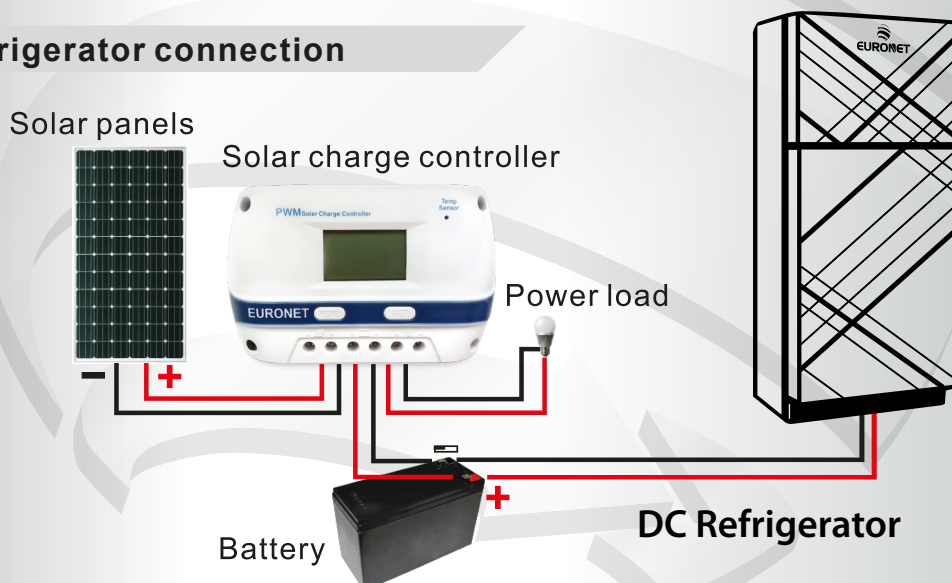

TECHNICAL SPECIFICATIONS

| MODEL | RATED VOLTAGE | RATED POWER | RATED CURRENT | REFRIGERANT/CHARGE | FOAMING AGENT | NET WEIGHT |
|-------------|---------------|-------------|---------------|--------------------|--------------------------------|------------|
| EURO-FR138L | DC 12V/24V | 50W | 4.2A/2.1A | R134a/74g | C ₅ H ₁₀ | 26.5kg |
| EURO-FR188L | DC 12V/24V | 70W | 5.8A/2.9A | R134a/84g | C ₅ H ₁₀ | 32kg |
| EURO-FR258L | DC 12V/24V | 70W | 5.8A/2.9A | R134a/90g | C ₅ H ₁₀ | 39kg |

REQUIRED INFORMATION

Solar Refrigerator connection

Warning turn on the refrigerator after ensuring no reverse connection.

SOLAR FREEZER (FR-D)

Features:

- 12v / 24v DC Power
- No inverter needed
- Steel Coated interior
- 4.5 inch polyurethane walls
- Adjustable temperature control
- Minimal frost build up & cold loss
- Air cooled condenser for fast cool down
- Operating lights for easy trouble shooting
- Two in one thermostat (refrigerate or freeze)

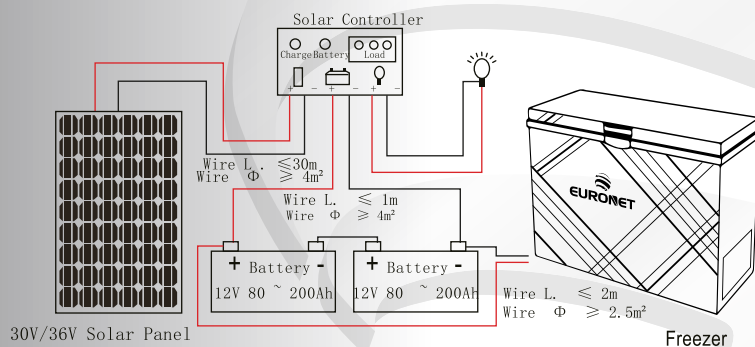

TECHNICAL SPECIFICATIONS

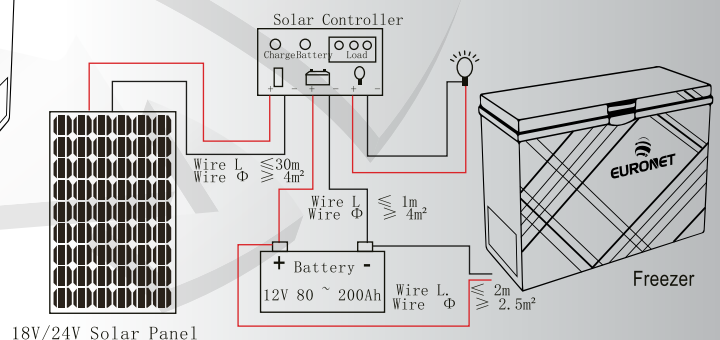

| MODEL | FOAMING AGENT | VOLTAGE | REFRIGERANT | RATED POWER |
|----------------|--------------------------------|------------|-------------|-------------|
| EURO-FR-D 50L | C ₅ H ₁₀ | DC 12V/24V | R134a/65g | 50W |
| EURO-FR-D 150L | C ₅ H ₁₀ | DC 12V/24V | R134a/110g | 55W |
| EURO-FR-D 200L | C ₅ H ₁₀ | DC 12V/24V | R134a/115g | 63W |
| EURO-FR-D 250L | C ₅ H ₁₀ | DC 12V/24V | R134a/125g | 68W |
