

EURONET

INVERTER (HUPS /PCU)

Features:

- Solar Panel Compatibility
- Sharing: GRID & SOLAR Mode.
- While charging battery from Solar
- Dual Charging Mode with Current
- Power as against Grid >98% efficiency.
- Grid Charging Enable / Disable Slide Switch
- Smart and Normal Solar Charging Slide Switch selection.
- Get Longer BACKUPS, as the UPS uses power from the Solar Panel also.
- Integrated with in-built 35Amp PWM based Smart Solar Management Unit.
- Long Battery Life as Sunlight directly converts into pure direct current (DC).
- User friendly LCD Display, displays all important parameters including Grid Units Saved(KWH) and Solar Power available (Watt.)
